DETAILED ACTION

Drawings

The drawings were received on September 15, 2006. These drawings are acceptable.

Allowable Subject Matter

Claims 20-38 are allowed.

Reasons for Allowance

Claims 20-38 are allowed since there is no prior art of record that teaches or suggests a projection system comprising a relationship of various elements as claimed with the specific allowable subject matter cited in the following claims:

Claims 20 and 30:

- a retardation generating a phase difference of a quarter period between light before and after passing through the retardation
- a polarize (wire grid polarizer) allowing light of a first polarity to pass through while reflecting light of a second polarity
- a polarizing beam splitter directing light from the polarizer toward a LCD panel
- wherein the light source emits a light beam passing through the retardation to the polarizer so that light of the first polarity in the light beam passes through the polarizer to the polarizing beam splitter while that of the second polarity is reflected by the polarizer through the retardation to the reflecting surface and further reflected by the reflecting surface through the retardation to the polarizer

Art Unit: 2871

Claims 21-29 and 31-38 are allowed since they depend on the allowed claims 20 and 38, respectively.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Ito (US 2001/0028412) discloses a projector comprising: a polarizer conversion; a retardation (half wave length) on the exit side; and a polarizing beam splitter.

Magarill et al (US 2003/0007105) discloses a projector comprising: a s-polarizer, a retardation (quarter wave length) placed between a LCD panel and a polarizing beam splitter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
